

RF-RX1-915

Portable Radio Frequency Receiver 915MHz

CONTACTA RADIO FREQUENCY

The RF-RX1-915 Portable Receiver is a lightweight device that can be used with the RF-TXRM Stationary Transmitter, RF-TX1 Portable Transmitter and RF-TXHH Portable Handheld Transmitter. It operates on the 915MHz frequency, wirelessly delivering clear sound to users.

There is no limit to the number of Receivers that can be used per system or programmable groups within each system. It's supplied with a micro-USB power supply for fast and easy charging and can also be charged with the drop-in RF-DC-24 Charging Case. The Charging Case contains a software suite allowing for fast group programming making setup simple and convenient.

Compatible Accessories

- › RF-TXRM-915, Stationary Transmitter
- › RF-TX1-915, Portable Transmitter
- › RF-TXHH-915, Portable Handheld Transmitter
- › RF-DC-24, Charging Case
- › RF-NL1, Induction Neck Loop
Neckloops can be used in place of earphones for users that have a telecoil in their hearing device
