

SERENE®

HDPHONE™

HDS
TECHNOLOGY

- **HDS** (High-Definition Sound) Technology makes even the weakest voice sharp, clear and easily audible, a new standard in speech amplified telephone technology
- Amplifies the out-going voice up to 40dB
- Can be easily set to amplify the in-coming sound up to 18 dB
- Latest DSP (Digital Sound Processing) technology eliminates virtually all distortion, echo effects and unwanted static commonly found in other ordinary amplified phones
- 9 easy to use photo-memory buttons for one-touch dialing
- Two (front and side) visual ring flashers that flash when the phone rings
- 95+dB super loud ringer with adjustable ringing volume and tone controls
- Battery back up for power outages (batteries not included)
- Hearing aid compatible handset
- One year warranty
- Hearing aid compatible handset
