

## Wireless Door-Window Security Transmitter

### Model DW100T

For safety and peace of mind, the MyAlert™ Door-Window Security Transmitter is a cost effective solution that sends a wireless signal to the MyAlert remote receiver when the door or window is opened. The DW100T has an attractive and clean design to fit with any décor, and will work with all doors and windows. Built with safe and secure supervision, extended range, and million-code technology, this transmitter is designed to perform as well as, if not better, than competitors' units that cost considerably more.

#### Features:

- Transmits a wireless signal to all MyAlert™ remote receivers
