

Hear clearly.

C35[™]

Amplified Coded
Telephone

- Clarity Power technology makes calls louder, clearer and easier to understand
- Amplifies incoming sounds up to 40 decibels
- Large, reverse contrast buttons for easy dialing
- Bright, flashing visual ring indicator

Hear clearly.

Clarity Power[™] technology enables loud and clear conversation, allowing much better communication than with a standard telephone.

Easy to use.

A lightweight handset and large, reverse contrast buttons with big numbers makes the phone easy to use.

Loud and clear.

Forty decibels of amplification make this phone four times louder than standard telephones.

Features

- Clarity Power[™] technology makes calls louder, clearer and easier to understand
- 40 decibels of amplification (with batteries) to amplify sounds up to four times louder than the average phone
- Large, reverse contrast buttons to make dialing easy for those with sight or dexterity challenges
- Bright visual ring indicator that flashes to signal incoming calls
- 12 speed dial buttons
- Adjustable ring volume and tone
- No power adapter required, batteries included
- Hearing aid compatible
- One (1) year limited warranty
