CLARITY® 
Amplifying Your Life™

CLARITY C510

Features:

- By engaging the Clarity® Power™ Boost feature, the volume and frequency are enhanced to the level set by the Clarity Power Dial.
- Phone provides up to 15dB of amplification before Boost is activated and up to 30dB after Boost is engaged.
- For multi-user homes, phone can reset to nominal level after each use for convenience and safety.
- Message waiting indicator illuminates when messages are received or a call is missed.
- One step voicemail access for quick message retrieval.
- Call waiting and Caller ID
- Easy mode operation allows phone operation to be simplified. When enabled the Phonebook and Caller ID functions are disabled.
- LCD with large text provides easy viewing of name and numbers
- Backlit keypad can function as a visual alert of incoming calls.
- Nitelite illuminates the keypad while the phone is in standby mode
- Choice of eight ringer volumes and six ring styles allow the phone to be customized for optimal sound.

Does Clarity Power really make a difference?

Clarity Power not only makes calls louder, but also easier to understand. The patented Clarity Power technology amplifies and shapes high frequencies to enhance communications for the millions of people who experience high frequency hearing loss, the most common type of hearing loss.
