

M300

Cardioid Microphone

PRODUCT INFORMATION

The M300 is a cardioid microphone that instinctively filters background noise, isolating the voice of the speaker. The weighted base and flexible gooseneck stem make the microphone ideal for counter, booth, or desk locations. The M300 is compatible with the counter loop systems and the Portable Info Loop (PIL).

The M300 MB2 model has a stereo 1/8" jack in the base to increase customization in its use.

Physical Data

Dimensions	Height – 13.75" including base Diameter of Base – 2.625" Cable Length – 97"
Weight	1.4lbs
Construction	Mild Steel
Finish	Powder Coated, Black

Technical Data

Frequency Response	50Hz – 20kHz
Sensitivity	49.5dB @ 1kHz
Directional Response	Cardioid Condenser
Distortion	Typically less than 1%

Applications
