

MemoryPlus 335

wireless object locator

ABCD 4 sensors included

 repeating alarm signal

 reminds you to return transmitter to cradle

With MemoryPlus 335 you'll never waste time looking for your keys, wallet or other important items at home. Simply attach the wireless sensors to your important objects and use the remote transmitter to produce a beeping signal from the object you're looking for. A smart reminder beep is heard from the transmitter if you forget to replace it in it's cradle.

doro
