touch3

The user-friendly  
smartphone that keeps  
you safe and healthy.

# Smart and simple with built-in medical alert apps.

Most smartphones are complicated with tiny icons and multiple screens. The GreatCall Touch3 was designed to be easy to use from the moment you turn it on. Everything you want to do, from texting to emailing to taking pictures, is organized in a single list on one screen with large, legible letters.

Other smartphones require excessive data plans, that make you pay for data you don't need. Starting at just \$2<sup>49</sup> per month, GreatCall provides a variety of data plans, so you're able to add the one that works best for you. Compared to other cell phone companies, you could save over \$300 per year, making the Touch3 phone plans the most affordable on the market<sup>1</sup>.

**The Touch3 comes with exclusive built-in apps to keep you safe and healthy.**

5Star immediately connects you to highly-trained Agents, who can help in any emergency.

Urgent Care gives you unlimited access to registered nurses and board-certified doctors, 24/7.

MedCoach helps you easily follow your medication schedule as prescribed by your doctor.

A GreatCall GoPlan™ lets you use the built-in medical alert apps at no additional cost.

There are no additional fees to call GreatCall's U.S.-based customer service. However, for calls to an operator in which a service is completed, minutes will be deducted from your monthly balance equal to the length of the call and any call connected by the operator, plus an additional 5 minutes.

Monthly phone plans do not include government taxes or assessment surcharges and are subject to change. Unlimited phone plans do not mean unreasonable use. If your usage is unreasonable, we may, at our option, terminate your service or change your plan to one with no unlimited usage components. We will provide notice if we intend to take any of the above actions, and you may terminate your service prior to this change. Monthly minutes carry over and are available for 60 days. There will be no additional charge for these wireless emergency alerts. Wireless emergency alerts may not be available on all devices or in the entire service area, or if a subscriber is outside of GreatCall's service area. Our coverage map estimates where your phone will work. A number of factors affect the specific coverage you will get including signal strength, weather, geography, topography, buildings, and the radio transmissions your phone can pick up. As with all cellular phones, you will not be able to make 9-1-1 calls when cellular service is not available. Standard usage rates apply while listening to your Voice Mail on your GreatCall phone. Monthly fee is per phone.

When calling from the domestic U.S. to other countries, or when calling from outside of the domestic U.S., additional international calling rates will apply.

Urgent Care, brought to you in partnership with FONEMED,® is not a substitute for dialing 9-1-1 and should not be used in a case of emergency. FONEMED's registered nurses and contracted physicians through MDLIVE (the "Providers") offer advice regarding health care decisions, may prescribe certain medications and make diagnoses. We are not liable for any act or omission, including negligence, of any FONEMED employee or contractor.

GreatCall is not a health care provider and does not provide health care services. You should seek the advice of your physician if you have any questions about medical treatment.

5Star service may not be available in remote or enclosed areas. 5Star service will be able to track your approximate location when your device is turned on, but we cannot guarantee an exact location.

Handset replacement eligibility begins at 60 days from program enrollment date. Limit one replacement per 12-month period. \$50 replacement processing fee applies for the GreatCall Touch3.

Bonus minutes will be available for use on your next bill cycle and expire at the end of that cycle. Bonus minutes are not shared and will be applied to that line of service.
