Model CL-60

Big Button Amplified Talking CID Cordless Phone
for people with hearing loss, low vision or limited mobility

- **HDS** (High-Definition Sound) technology for unmatched clarity, a new standard in amplified telephone technology
- Amplifies incoming sound up to 50+dB, the most powerful in its class.
- Selectable Tone Settings allows you to boost and enhance the speech you can't hear well, making difficult to hear words intelligible again
- Latest Digital Sound Processing (DSP) technology eliminates virtually all distortion, echo effects and unwanted static commonly found in other ordinary amplified phone
- Caller ID and Call Waiting on large and brightly back-lit display
- Selectable loud and clear voice enunciation of the caller's number
- Selectable talk-back key pad
- High performance speakerphone
- Visual Voice mail indicator
- User friendly and intuitive design layout with large and brightly back-lit keys
- One touch Call-for-Help button for hands-free emergency calls
- 3 one-touch speed dial memory buttons
- Bright ring flashers and super loud ringer on handset and base
- Selectable loud ringer
- DECT 6.0 transmission technology for superior performance and range
- Jacks for headset, neck loop, tele-coil and other accessories
- Battery back-up for full operation during power outage (batteries not included)
- Hearing aid compatible handset
- Belt clip and lanyard (not included) for easy carrying
- Expandable up to five (5) handsets
