

IntelliCALL™ UNIVERSAL BUSINESS PHONE AMPLIFIER

For loud and clear calls in your office

Features

- Amplifies incoming voices up to 170 times (45+dB), so you hear every word with unmatched clarity
- Selectable Digital Tone Enhancement allows you to boost and enrich the speech frequencies you can't hear well, making difficult to hear words intelligible again.
- Automatic Gain Control optimizes sound level for superior listening comfort.
- Latest Digital Sound Processing technology eliminates virtually all distortion, echo effects and unwanted static commonly found in other ordinary amplifiers
- Works with virtually all business telephones and headsets; it connects between phone's handset/headset and base.
- Easy headset/handset selection button for extra convenience
- AC adapter included, Battery (9V) optional
