

Do You See The Light?

Silent Call LampLighter Alerts You To Many Household And Safety Needs

Sounds, phone calls, doorbells, fire alarms, carbon monoxide threats, weather alerts and more are all connected to this unique signaler. Simply plug the device in to a standard wall socket, and your preferred lamp into the device and all of your Legacy series transmitters will alert as needed. Distinctive lamp flash patterns, and the array of LEDs on the tabletop unit, let you know the specific alert.

Easy and effective, the LampLighter:

- Notifies you by activating a table lamp
- Identifies specific events with unique flash patterns
- Works with all Legacy Series Transmitters
- Even provides tactile alerts with the (optional) Bed Vibrator (VIB-PJ)
- Battery backup, never miss an important alert
- Features the Silent Call 5-Year Limited Warranty
- The Silent Call Promise, next business day return warranty policy
- Keep your future bright with Silent Call's LampLighter!
