

Transmitter Direct Wired Doorbell

Connects to your doorbell, alerts you when someone presses the button.

Become aware when someone is at your door. When a visitor presses the doorbell button, the Medallion™ Series Doorbell Transmitter broadcasts a signal to any Medallion™ Series Receiver. Wired to your existing doorbell, it is activated by the same current that operates the doorbell chime when someone pushes the button. Easy to install and powered by the doorbell's electrical circuit, there are no batteries to replace.

Features/Benefits

- > Signals when a visitor pushes the doorbell button
- > Works with all Medallion™ Series Receivers
- > Operates with million-code technology designed for apartments, condominiums, dormitories, hotels and public housing to ensure you never get fault alarms from neighbors using other RF-based products; also ideal for use in single-family homes
- > Connects to the doorbell wiring; installs easily
- > Operates on the doorbell electrical circuit; no batteries are required
- > Features the Silent Call 5-Year Limited Warranty

Specifications

Power: 12-24 VDC

Range: Up to 500 feet, depending on conditions or receiver used

30-Day Return Policy If Not Completely Satisfied

5-Year Limited Warranty: This Silent Call product is warranted to be free of defects in material or workmanship for five years from the date of initial purchase. During that time, the unit will be repaired or replaced free of charge (three- to five-day turnaround) when shipped prepaid in original packaging to Silent Call Communications. This warranty is void if the defect is caused by customer abuse or neglect.
