

Wireless Personal Transmitter

Model PT100T

Our wireless personal transmitter is a sure and cost effective solution for your immediate need to receive attention. The PT100T works exclusively with the MyAlert™ multi-function Receiver. With an extra-long lasting 10 year Lithium battery, you're sure to have many years of trouble free operation. Built with safe and secure supervision, extended range, and million-code technology, this transmitter is designed to perform as well as, if not better, than competitors' units that cost considerably more. The simple push-button unit transmits a wireless signal to the remote receiver virtually anywhere in the home. With its clean and compact design it can be kept at your bedside or carried in your pocket.
