

Wireless Landline Telephone Transmitter

Model TR100T

When your phone rings, you need to know it! The MyAlert™ Wireless Telephone Transmitter is a cost effective way to ensure that you know when your phone is ringing. The TR100T has an attractive design to fit any décor and works with the MyAlert remote receiver. When the phone rings, you'll be notified with a clear visual icon, bright flashing LED, and loud amplified sound. Setup is a breeze, simply plug in the RJ11 phone jack to your existing telephone line. No power supply needed, and no batteries. Simple one button pairing so you never miss another call again! Built with safe and secure supervision, extended range, and million-code technology, this transmitter is designed to perform as well as, if not better, than competitors' units that cost considerably more.

Features:

- Transmits a wireless signal to MyAlert remote receivers for incoming calls
- Transmitter range reaches any area of your home even back yards
- Easy Installation, plug into your RJ100 telephone outlet, press one button to pair with any MyAlert remote receiver, and you're ready to go
- Battery powered, with an extra-long life battery (included)
- Supervised low battery warning on receiver
- FCC certified and CE Listed for your security
- One-Year MyAlert warranty
- MSRP \$29.95
