

Line Power Telephone Ring Alert

Model TRS102

When your phone rings, you need to know it! The MyAlert™ telephone ring alert is a cost effective way to ensure that and the attractive design fits with any décor. With an extra-bright LED flasher and extra-loud 100db sound, the TRS102 is powered by the telephone line and requires no batteries. It is easy to setup by simply plugging in the provided phone line to your existing telephone line. No power supply and nothing to program, it's that simple!

Features:

- Extra loud 100 decibel sound, great for those who deal with mild to severe hearing loss. Never miss another call again
- Super bright Yellow LED visual flashing light is very easy to see - light up the night or day from rooms away!
- Adjustable volume control, adjust the sound & flashing to meet your needs
- Easy setup, simply plug into your existing phone line, install one screw and it's good to go!
- No Batteries required, powered by the phone line
- FCC certified and CE Listed for your security
- One-Year MyAlert warranty
- MSRP \$29.95
