

NURSE TRAVEL KIT

Essential tools for compassionate, clear communication — anywhere care takes you.

Nurses are on the move — providing vital care in hospitals, long-term care facilities, and home health visits. But when a patient has hearing loss, even the simplest interaction can become a challenge. Misunderstandings can cause frustration, fear, or medical errors.

WHAT'S INSIDE THE KIT

Hand Sanitizer

Hand sanitizer for keeping hands clean.

Personal Notification System

Notifies someone when button is pressed.

Personal Sound Amplifier

Improves hearing for patient.

Alcohol Swabs

Protects users from contaminating hands.

Sanitary Headphone Covers

Protects patient from contaminating ears.

Pill Dispenser

Helps keep medication consistent.

Magnifier

Helps patient read text easier.

Captioning Tablet

Improves communication for patient.

KEY BENEFITS

» Improves Communication Clarity

Supports accurate two way communication between nurses and patients.

» Reduces Frustration and Misunderstanding

Helps prevent stress, both for caregivers and patients high-stakes interactions.

» Enhances Patient Safety

Ensures critical information is exchanged clearly, improving clinical outcomes.

» Increases Nurse Confidence

Provides practical, portable tools to help nurses adapt to any care environment.

» Promotes Inclusive Patient Centered Care

Demonstrates a commitment to accessibility and every patient interaction.
