TELETALKER™ Amplified Telephone System • Model TEL 040

## Description:

No one should have to struggle when it comes to hearing on the telephone. Listen more clearly and easily with the TELETALKER™ from Williams Sound. The TELETALKER combines a powerful amplifier with a sophisticated signal processing circuit to enhance phone signal quality.

The TELETALKER features 55 dB of strong amplification—the strongest available on the market! The Teletalker improves speech understanding and amplifies calls without feedback. An extra loud ringer combined with a flashing ring indicator ensures you won't miss important phone calls. Large buttons and volume control provide for easy use and operation. Adjustable tone and volume controls allow the listener to best accommodate their hearing loss.
